Reply.—The first of these roads will be included in the general scheme already referred to. The remaining roads are not important.

325. Deepening of canals in Kartigapalli.

Mr. N. Vasudevan Pillai suggested that the northern portion of the Kartigapalli canal from Thanakadavu northward for a distance of about two miles and the canal from Aranazhi Nelpurakkadavu to Pallipaud river *via* Vazhuthanam, might be deepened and made navigable for canoes.

Reply.—As regards the first canal, an estimate for improving it is under preparation. The other work referred to seems unnecessary.

326. Opening of a cattle-pound at Haripad.

Mr. N. Vasudevan Pillai represented that this was very necessary.

Reply.—An application may be made to the Division Peishkar in the usual course. General instructions have been issued to the Peishkars on the subject.

327. Improving the condition of the Medical Dispensary at Haripad.

Mr. N. Kesavan Valiathan (*Kartigapalli*) represented that the Haripad dispensary was not located in a suitable building and the annual supply of medicines to that institution soon ran short of the requirements.

Reply.—The dispensary was only opened very lately. It must be watched for at least three years more before any improvement could be effected. As regards the inadequacy of the supply of medicines, the the Durbar Physician will see to it.

328. Making the lane from Pathiyur Bridge to Kanakakunnu Market in Mudukulam cartable.

Mr. Sankaran Kochukunju Channar (*Ealava Samajam, Kartigapalli*) in whose name the subject stood was absent.

Reply.—This is not feasible as the cost is prohibitive.

329. Repair of bridges and culverts on the road from Mavelikara to Trikkunnapuzha.

This subject also stood in the name of *Mr. Sankaran Kochukunju Channar.*

LIBRARY ARCHIVES Kerala Legislative Assembly

Reply.—This road is under improvement. A bridge has been sanctioned. The other culverts will also be attended to.

330. Deepening of some portions of the canal from Karipuzha to Veyapuram and the canal from Arattupuzha backwater to Cheppaud Ela.

This subject was also in the name of *Mr. Sankaran Kochukunju Channar.*

Reply.—Some work was recently done on the first canal. Further work is deemed unnecessary. The other canal mentioned is unimportant.

331. Conversion into money of the paddy tax on lands attached to the Aranazhika Nelpura.

This was another of *Mr. Sankaran Kochukunju Channar's* representations.

Reply.—The proposal is not feasible. These Nelpura lands have not been brought under the new scheme.

KOTTARAKARA TALUK.

332. Sanction of funds for repairing the existing irrigation tanks and canals and for providing new ones.

Mr. R. Narayana Iyer (Kottarakara) said that unlike Nanjanad, there were no facilities for agriculture in Kottarakara and that the benefit of the remission rules was not allowed to the ryots in times of failure of crops. He, therefore, requested that funds might be sanctioned for improving the existing irrigation tanks and channels as also for providing new ones in places where they were urgently required.

Reply.—This has been already answered. *Vide* subject No. 130.

333. Recent alteration of the assessment rates on garden lands at Kottarakara.

Mr. R. Narayana Iyer represented that the soil of the dry lands in the taluk was very poor and, as such, the registering officers who visited them included them mostly under the 12th and 13th *tarams.* By a recent order, however, the rates were altered and the 10th and the 11th *tarams* fixed in lieu of them. In this matter, the Settlement Peishkar made his recommendation without inspecting the lands and
